## Great State Fair In Readiness

Mammoth Array of Exhibits—Sensational Auto Races—Spectacular Wild West Shows—Thousands Are Going.

### AEROPLANE FLIGHTS DAILY!

A bulletin was received from the officials at Salt Lake just before press time stating that the famous aviator Terah T. Maroney will make half a dozen flights in his racing aeroplane each of the first four days of the Fair. Maroney is the man who startled the western cities recently by making many daring experiments in the air in his aeroplane. This is an extra added free attraction for the year's State Fair.

With bands clashing, flags and bunting flying gaily from every nook and corner of the grounds and buildings of the Fair Grounds, with every State fair structure banked to the ceiling with wonderful and beautiful exhibits of grains, fruits, vegetables, live-stock and manufactured products, Utah's Great State Fair is ready. Thousands are coming from every part of the state and the intermountain empire for this—Utah's best and

biggest State Fair. Never in the history of the state have so many sensational amusements and attractions been secured for the Fair; never before has the Fair run for ten full days; never before have such beautiful exhibits been placed in every department.

Opening Monday, September 27th, the Fair runs continuously for ten days, up to and including Wednesday, October 6th.

Reduced rates have been granted on all railroads and Salt Lake is in gala attire for the event.

Interest among the farmers and stockmen of the intermountain west cannot help but center on the wonderful entries of blooded Short-horns and herefords in the cattle department. Seven world-famous herds of cattle have been entered, and in addition to these seven herds that have been or will be shown at the livestock show of the Panama-Pacific exposition, there are also scores of entries of fine blooded cattle by Utah livestock men.

The two big attractions of the fair will be the Irwin's Wild West Show, with over 200 head of livestock and 150 performers, and the ten or more great 300-horsepower racing automobiles that are to be sent around the mile track at the Fair Grounds for the first three days of the fair.

Louis Disbrow, Eddie Hearne, Lee Gunning, Joe Bianchi, and the other drivers of renown are to pilot the great racing machines and will be on the grounds early next week getting a line on the track and tuning up their speed creations.

Lucille Belmont, the daring girl balloonist, who is to go aloft daily in a great balloon and to descend to earth in three separate parachutes, is expected to arrive Thursday, and begin preparations for her sensational flights each of the ten days of the fair.

A state-wide "beauty" contest is being arranged for which every pretty girl in the state is expected to participate. Beautiful prizes of jewelry, handsome gowns, and other things dear to feminine hearts, will be offered.

AN ATTEMPTED FRAUD

A contemptible piece of business was attempted recently by a professional horseman in a nearby locality. He attempted to register grade colts as the offspring of purebred percheon mares which had not foaled during that season. The strong arm of the Percheon Society of America immediately reached out into the section and made an exhaustive investigation of the matter. This resulted in the attempted fraud being frustrated. The guilty party will be dealt with at the September meeting of the Board of Directors of the Society.

Such attempt is not only a violation of their rules of the Percheon Society of America, but it touches every percheon breeder and the horse industry in general, especially in the section where such a thing might be done. If the attempt had been successful, a grade colt would have been registered. Some one then would have purchased an inferior animal; one which had no prepotency or power to transmit any good qualities. The mare bred to such a mongrel would better remain unproductive.

Such an act suggests one danger in the horse breeding business it makes it imperative in buying horses for breeding purposes, to carefully look into the honesty of the salesman. Such an attempted fraud is of the lowest type of trickery and should not be tolerated. The fullest extent of the law should be dealt out to the person who has so little regard for the principles of honesty, for he is indeed a menace to society.

Why You Should Trade With Firms That Advertise: Because the firm that bids for your business feels that it has the quality to keep you a customer once you give it a chance.

Because the firm that advertises is the live firm. You know this, yourself. Who are the most persistent advertisers in this city? Are they not the best firms?
